

DollarMate *U.S. Counterfeit Money Detector*

Do your employees know how to identify counterfeit money?

Don't rely solely on employee eyes or a pen. Using state-of-the-art technology, the DollarMate Counterfeit Money Detector quickly verifies the magnetic properties of the ink on all U.S. Dollars in order to verify the authenticity of a bill. Green light indicates a good bill, Red light and Buzzer identifies a counterfeit bill. Now it's fast and easy to stop counterfeit bills.
