PAYMENT SOFTWARE

KashBox™ LE/Plus

Fast payment processing for credit cards, ATM/debit cards, checks, and gift cards

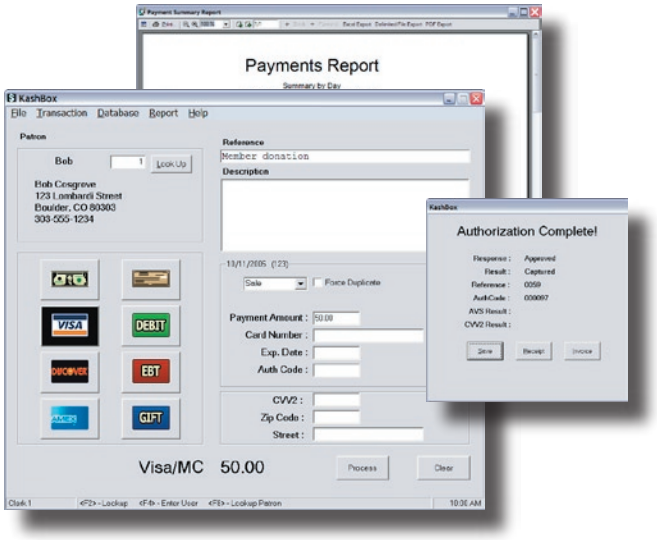
KashBox offers small businesses, professionals, and non-profit organizations an affordable alternative to dedicated credit card terminals and support intensive payment processing applications. With KashBox you can accept electronic payments on almost any Microsoft® Windows® based PC with an internet connection or a modem and phone line.

Clear the clutter!

- No more dedicated hardware terminal
- No more dedicated receipt printer
- No more extra cables and power supplies

Save time and money!

- Run on multiple computers, no more sharing a credit card terminal
- Use any laser or inkjet printer for receipts
- No more dedicated phone line or interruptions
- Matching merchant service rates, FREE gift card processing, real-time internet reporting, and automatic daily settlement!



An ideal solution for . . .

- **Wholesale suppliers and retail stores**
- **Dental, medical, chiropractic, and other professional service providers**
- **Churches, community service groups, and other non-profit organizations**
- **Schools and government service agencies**

THE CLEAR CHOICE IN RETAIL AUTOMATION

MORE ABOUT KASHBOX LE/PLUS SOFTWARE

KashBox software is available in two versions, Limited Edition (LE) and Plus. KashBox LE is FREE to use – all that is required is a simple registration. KashBox Plus is available only through Authorized Dealers and offers the added features shown below. To contact an Authorized Dealer, call SBS at 800-359-3458 (M-F 8am-6pm Mountain Time).

To process non-cash electronic payments using KashBox, a merchant account with Mercury Payment Systems is required. Mercury is a VISA CISP Compliant Service Provider who specializes in processing transactions via integrated software such as KashBox. Please see below for more information about Mercury Payment Systems.

KashBox Plus Features

Everything in KashBox LE, PLUS . . .

- Automated batch processing of recurring payments such as periodic fees, weekly donations, or monthly dues.
- A complete Patron database for recording customer names, addresses, and phone numbers, and more.
- Extended Payment Descriptions for recording detailed information about each payment.

Download KashBox LE/Plus software today, and evaluate KashBox Plus features free for 30 days. Continue using KashBox LE free, or contact an Authorized Dealer for an easy low-cost upgrade to Plus.

Powered by Mercury Payment Systems

KashBox payment processing software is so easy to use and affordable, in part, because merchant services are provided exclusively by Mercury Payment Systems (MPS), an innovative and leading provider of electronic payment processing services. Since KashBox is integrated to only work with MPS, development and support issues are significantly less and you can expect greater reliability and better satisfaction.

Signing up for an MPS merchant account is easy – you can begin an application over the phone in just five minutes, and begin processing in as little as one day.

Mercury Advantages

- Fast and reliable processing via IP or dial-up
- Free gift card processing
- Competitive credit/debit rates
- No application fee and no term committment required
- Automatic end of day settlement (optional)
- Real-time web-based reporting
- Prompt deposits and monthly statements
- Free 24/7 live customer support
- Exclusive stand-in authorization in case of network outage.
