

SHARP®

VERSATILE DESIGN FOR EXCEPTIONAL CUSTOMER SERVICE

UP-800 SERIES
POINT-OF-SALE SYSTEM

INCREASED FLEXIBILITY AND USER-FRIENDLY FEATURES... AT YOUR SERVICE

Now it's easy to get the power, efficiency and expandability that your business needs to stay one step ahead. Built on Sharp's world-renown reliability and innovative technology, the new UP-800 Series offers advanced, easy-to-use features that allow you to customize your Point-of-Sales System for your hospitality or retail needs.

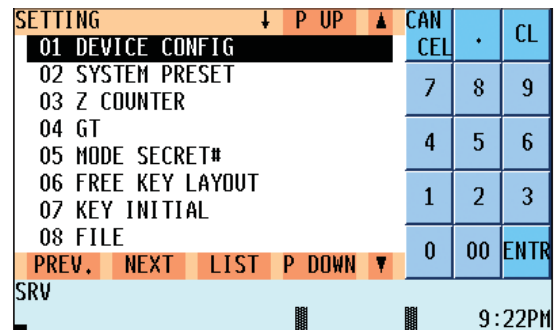

Enhanced software features combined with a new innovative touch screen and interchangeable keyboard are designed to increase speed of service when entering transactions. A 6.5" backlit LCD color display makes it easy for servers to verify items, prices and order data. Employees can utilize the keyboard or the advanced PLUS Touch Screen to enter data, allowing for fast order entry and improved service. With integrated easy-to-use software and flexible configuration options, any of the models in the UP-800 Series can easily grow as your business needs evolve.

IMPRESSIVE FEATURES FOR BUSY ENVIRONMENTS

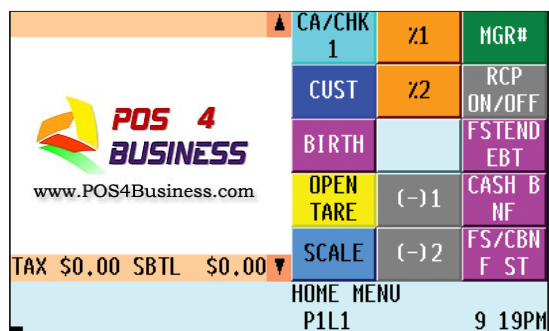

The UP-800 Series builds on years of Sharp technology expertise to deliver a flexible yet incredibly reliable POS system. Well-designed hardware and a stable operating platform provide for faster order entry, enhanced back-end operations and improved customer service. Advanced features include:

- Color touch LCD screen
- Space saving cash drawer maximizes counter space for operations
- 30 flexible function menus put the right options together for fast operations
- Enhanced manager control of discounts and voids minimizes abuse
- Quantity tax handling for special merchandise
- Hold and recall a transaction to help a customer without stopping your sales flow
- SD Card interface simplifies backup for data and programs
- Ethernet interface for multiple terminals (Up to 32)
- Flexible payment options to meet customer demands
 - Credit/Debit
 - Gift Card processing
 - EBT Electronic Benefits Transfer

All the models in the UP-800 Series allow for an advanced set of upgradeable options to meet your growing business needs. Optional features include scale, scanner for UPC/EAN, coin dispenser, 2-line 20 character pole display, ViVOpay™ contactless payment device, real-time output to printer or security systems, and a BERG drink dispenser.

Easy-to-use touch-screen menus for programming and reporting access.

Customizable function key for the HOME MENU and up to 30 function menus.

ADVANCED TECHNOLOGY SERVES UP A HIGHER LEVEL OF PERFORMANCE

Designed to meet a variety of hospitality and retail needs, the Sharp UP-800 Series delivers efficient management tools that provide outstanding performance, reliability, and versatility needed for today's busy environments.

COLOR LCD TOUCH PANEL

The UP-800 Series 6.5" color LCD backlit display details eight lines of on-screen information, making it easy for servers to verify orders and confirm sales data. Optimized for use in dim light, the screen is also adjustable and can accommodate up to 15 customizable keys for quick entry.

QUICK CUSTOMER SERVICES

The Sharp UP-800 Series delivers enhanced speed as well as more accurate order entry. Time-saving features include fast keyboard entry, touch-screen operation for modifiers and choices, plus flexible function menus that combine special functions for fast and efficient action.

INCREASE SALES AND PROFITS

The Sharp UP-800 Series supports promotions and combo meals, enabling you to drive sales with targeted special and offers. Detailed reporting lets you analyze sales and purchase history so you can pinpoint trends and make menu modifications accordingly.

EASY-TO-USE INTERFACE

The UP-800 Series is incredibly user-friendly, so you'll spend less time training employees. Automated prompts and simple, customized screens make it easy for staff and managers to enter information quickly and accurately.

ENHANCED CONTROL WITH STANDARD ETHERNET

For increased versatility, one UP-800 can function as a central terminal for all others in the location. Ethernet capability enables POS data to be combined centrally, so you can save time closing out and totaling.

FLEXIBLE PAYMENT OPTIONS

To support a variety of tender options, the UP-800 Series offers an optional magnetic card reader for credit and debit purchases, gift card purchases and EBT Electronic Benefits Transfers.

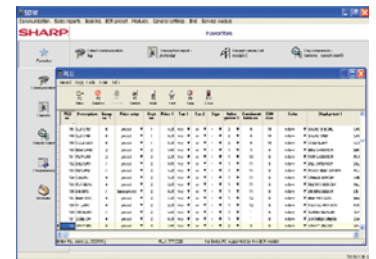

SHARP INTELLIGENT DATA ENTERPRISE (SIDE)

Designed for businesses with multiple locations, SIDE leverages the power of the internet to view automatically polled data from multiple stores. Now you can easily review data, spot variances, trends and issues and react more quickly to customer demands. Data can be analyzed, exported and manipulated to improve daily operations. With optional SIDE reporting, you get a simple and inexpensive solution that enhances operational control and management for multi-unit operators, Franchisees, Franchisers and Corporate Owned operations.

SDW BACK OFFICE SOFTWARE

The Sharp UP-800 Series delivers increased functionality with the "back-of-house" solution. Get more control to manage your business with detailed reporting features. You can easily schedule communications between the POS and the software to provide access for changes at the POS and sale data in the PC for reporting. Several optional modules allow you to meet your growing business needs with graphic reporting, data export, and inventory control.
