

➔ STAR TSP143III LAN

Introducing Star's new Ethernet printer solution, the latest model from Star's renowned TSP100 Series used by retailers & restaurateurs across the globe from major retailers & fast food restaurants to your local corner shop & café.

Introducing Star's super fast, entry-level Ethernet printer (10/100baseT, UTP) with LAN cable supplied & "Virtual" Serial Port.

This latest addition to the TSP100 Series provides a range of new features including a high print speed of 250 mm / second, a guillotine auto cutter (cutter life 2 million cuts) as well as thin paper capability providing benefits not only for the environment but also the user's operating costs. The cost-effective solution includes the convenience of an internal power supply along with a vertical mount kit in the box.

- ✦ **FAST** 250 mm/second print speed
- ✦ **DROP-IN & Print** paper loading
- ✦ **ULTRA white** version available (indent only)
- ✦ **NEW guillotine** auto cutter (2 million cuts)
- ✦ **CONVENIENT** internal power supply
- ✦ **THIN** paper capability (0.053 to 0.085mm)
- ✦ **DEVICE CHARGING** 5v-1A USB "trickle" charging
- ✦ **NEW AllReceipts** Digital Receipting from Star Cloud Services

Designed to work with today's market leading operating systems – Android, iOS, Linux, Mac OS & Windows, this printer will have a dramatic impact on the retail environment and enhance Star's leading position in the mPOS as well as traditional POS marketplaces.

➔ TSP143III LAN

80mm Receipts

Printer Powered USB Device Charging (5V-1Amp)

Auto Decurl Feature

No more curled receipts falling off the counter. Star's new "decurl" feature literally flattens the receipt before delivery.

STAR CLOUD SERVICES

The new TSP143III LAN works happily with Star's new Digital Receipting service AllReceipts. The printer immediately sends an image of the printed receipt with full colour promotional image or advertising to the Cloud for anonymous retrieval by the customer - no need for phone number or email address. Retailers will now be able to receive instant feedback on customer satisfaction as well as provide promotional material on their customer's smartphone. The customer, in turn, will have an exciting new mobile App to manage their receipts digitally by date, type or retailer with backup & print facility. Online, real time device management also included.

TSP143III LAN Specifications

Print Method / Resolution	Direct Thermal / 203 dpi
